THE
VIP ALL ACCESS PASS
GETTING STARTED

BY MICHELE SPRING

Welcome!!

No matter what specific reason you've joined The Autoimmune Collective, I'm willing to bet that the main underlying reason is that you want your life back. A life that was robbed from you by symptoms of a disease you never asked for nor wanted.

However, I also recognize that going on a restrictive diet or changing your lifestyle isn't exactly getting your life back. In some ways, it's taking it away even more to have that chance at getting it back.

That's why in the AIC we not only talk about food and lifestyle for NOW, but also give you the tools to end the grip that your disease has on you so you can heal and feel better *for the rest of your life.*

5

The Autoimmune Collective approach to transformation in your overall health is based on three phases that you'll find outlined over the next few pages.

Everything is built on the idea that with these three phases, you can start to get both the body and mind functioning properly, allowing you to live your life to the fullest.

Once you've got these dialed in you're unstoppable!

I'm so glad and honored that you chose me to help you through this journey!

xo- Michele

The 3 Phases of Autoimmune Health

2

Optimize Your Lifestyle

Once you've gotten to a point where you are no longer overwhelmed with the diet part and can handle more, it's time to start on this phase. Figuring out what will give you a good night of sleep, finding what works best for you to move and exercise, and managing your stress will show respect to your body and help it to continue to heal. If you don't pay attention to these, things can get bad again, no matter how "clean" your diet is.

1

Optimize Your Diet

The first phase is to eat a whole-food, nutrient-dense diet that includes delicious ingredients to quell inflammation, restore vital nourishment to the body, heal leaky gut, and stop the autoimmune activity. We don't promote restriction for the sake of restriction. Instead, focus on replenishing your body with lovingly prepared meals using the healthiest, most nourishing ingredients possible. Diet is a tool in your healing and the foods you tolerate or that nourish you the most may look different for everyone, but you need a starting place to ensure your success.

3

Optimize Your Mind

After you've dialed in the first two phases, you can start on this one. You may have habits and thought patterns that are working against you that you aren't even aware of. After all, we spend most of our days on autopilot! An example of this is unconsciously wanting to stay sick because you get some benefit from it, no matter how small the benefit is (attention, time off work, people doing things for you, etc are just a few reasons why, but there are many more). Using the tools in this phase, you can uncover these sorts of things that may be preventing you from healing or that will potentially cause you to go right back to old habits. We want you to clear out the harmful, negative thoughts and habits and replace them with ones that are beneficial to your lasting health.

Phase 1 - Optimize Your Diet

These boxes are clickable and will take you right to where you want to go!

02 | GETTING STARTED WITH MEAL PREP

This mini-course module will help you figure out the best ways for you to meal prep

04 | DUMP-AND-GO FREEZER MEALS

Easily get a bunch of dinners into your freezer without having to cook.

06 | THE RECIPE GALLERY

Find the meals you want to make using the handy filter!

01 | AIP BASICS COURSE

This will be helpful if you want to try and are new to AIP (the Autoimmune Protocol) and need a good understanding of the diet and what to do

03 | HOW TO USE FREEZER COOKING TO GET YOUR TIME BACK

This mini-course module will help you get a handle on the best way to use your freezer

05 | STEP-BY-STEP MEAL PREP GUIDES

Get your fridge, freezer, and pantry stocked. These range in time to do and many can be paired together to be even more productive with your time

07 | AUTOIMMUNE HEALTH TOPICS

These informative sections will help you to use nutrient-dense foods for faster healing, learn to love cooking, and enjoy stress-free holidays while eating differently than everyone else.

Phase 2 - Optimize Your Lifestyle

01 | AUTOIMMUNE HEALTH TOPICS

Run through these topics to learn how to stop feeling so overwhelmed all the time, how to get better sleep, and how to enjoy the benefits of exercise without flaring

02 | THE LIFESTYLE LAB - FILTER BY FOCUS

If you're experiencing an issue, like insomnia, a headache, stress, or need for energy, check out this section. Here you can choose various modalities by the amount of time you have to dedicate to it to see if it helps. We encourage trying things you've never tried before because you never know what will work!

04 | EXERCISE FOR AUTOIMMUNE DISEASE

Don't let autoimmune exercise intolerance stop you from moving your body in a beneficial way! The autoimmune-friendly workouts in this section are designed to support your body. There are exercises to do on days when you don't have much energy through when you want to challenge yourself a bit more!

03 | THE LIFESTYLE LAB - FILTER BY MODALITY

This is great to use if you just want to check out various modalities - like trying a guided meditation, listening to a soundbath, going through a Qi Gong workout, and more. Again, we encourage you to try things you've never done before as you may be surprised at what you love and by what works!

Phase 3 - Optimize Your Mind

02 | THE LIFESTYLE LAB - FILTER BY FOCUS

Not only can you filter to find tools to address your symptoms, you'll also find several hypnosis audios to help you break bad habits (like boredom eating and sugar cravings), guided meditations to let go of negative emotions, forgive both others and yourself, and show yourself loving kindness, EFT tapping to release all sorts of emotions, and so much more.

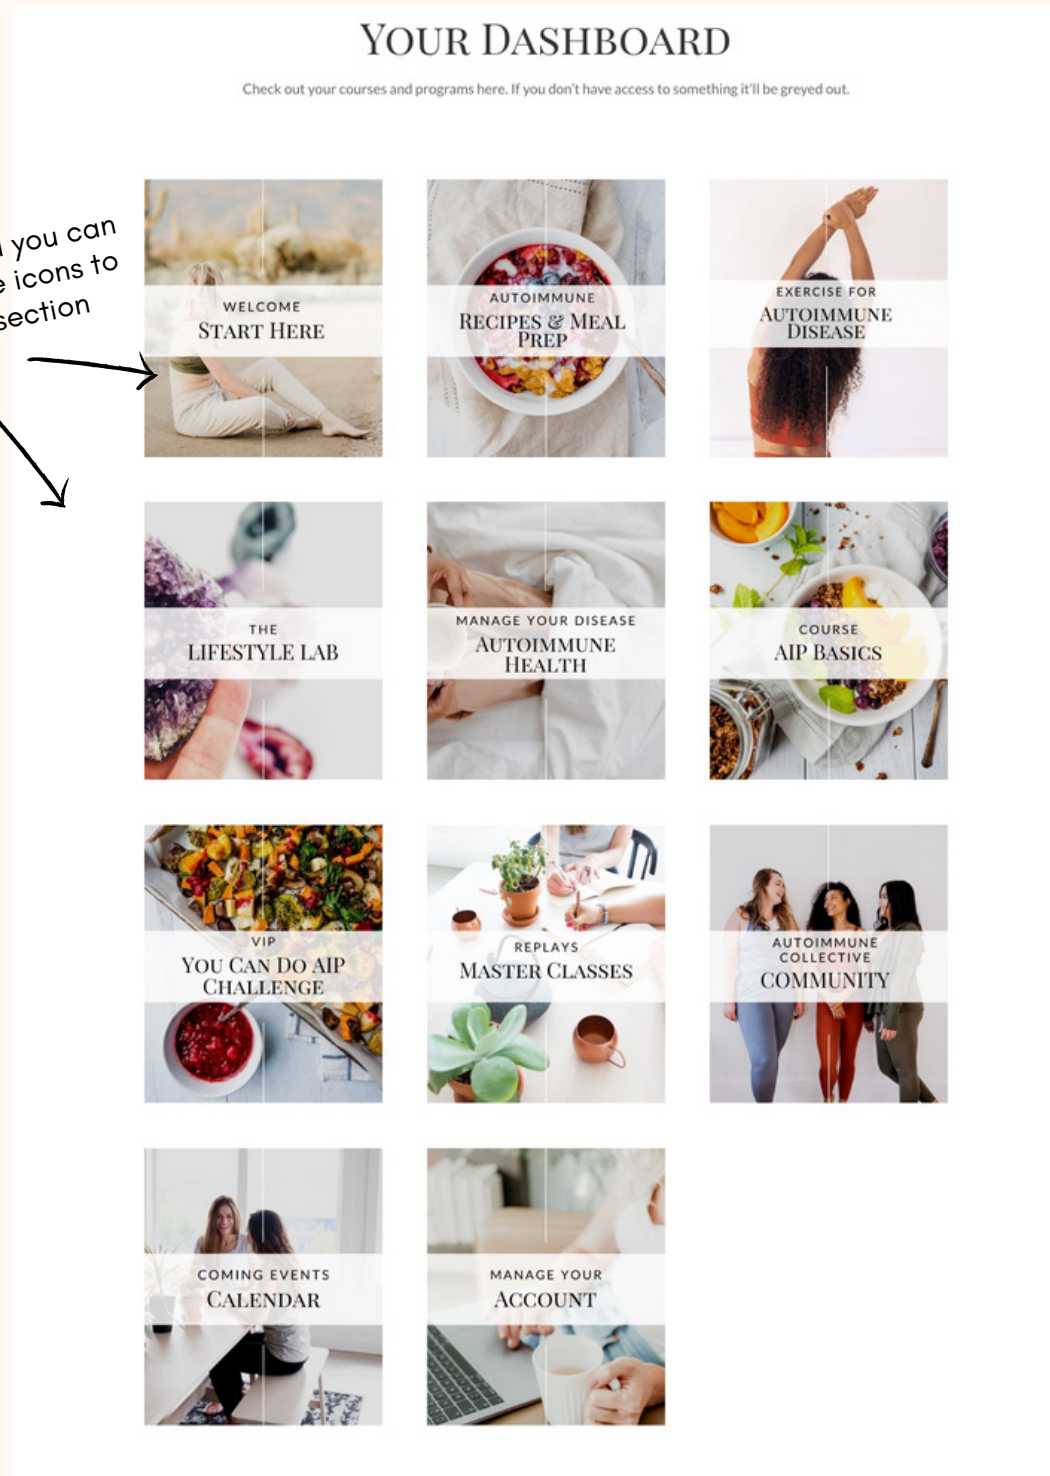

The Healing and Letting Go checkboxes are particularly helpful for finding resources for this focus!

01 | AUTOIMMUNE HEALTH TOPICS

At the moment this will be the bulk of your journey in this phase (more is coming). There are 6 critical topics to explore, from letting go of fear, getting rid of bad habits, how to bounce back from anything, and more. You'll find coaching and tools to support each topic to dive deeply into each!

To access the Community from inside the AIC, click on this icon in the main Dashboard:

The community is run on a MightyNetwork, meaning it's on a SEPARATE site, just like it would be if the community was in Facebook

Connect with others in our warm and loving community! This is ONLY for members of the VIP All Access Pass

Community Schedule:

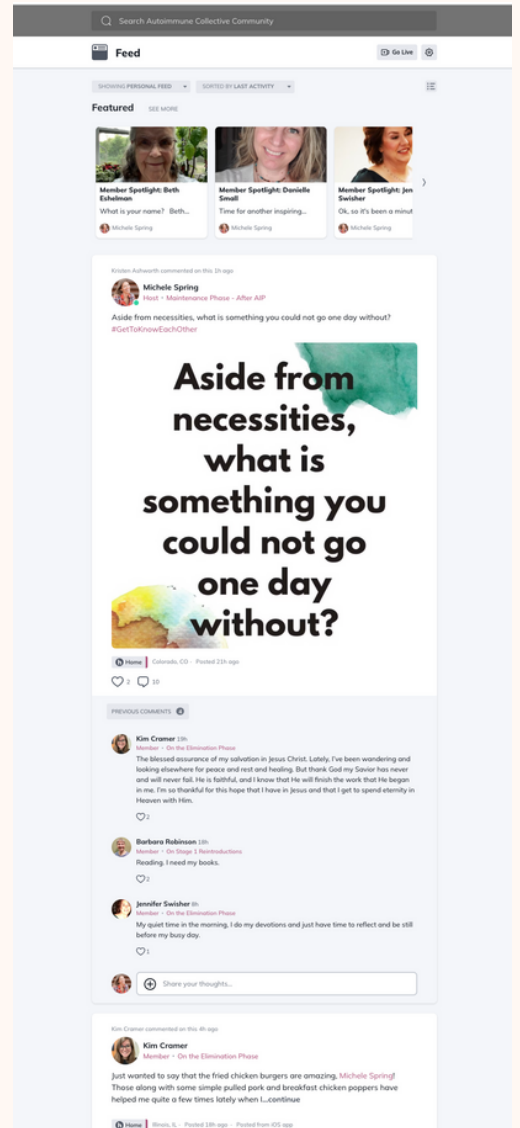

Mondays: Leave your intention for the week

Wednesdays: Get to know your fellow members with fun posts

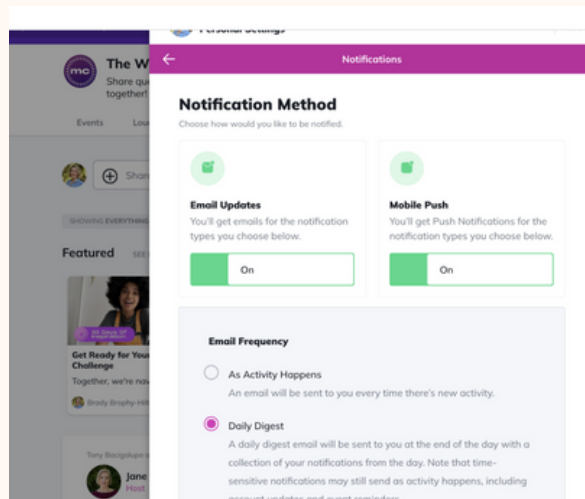

Fridays: Share your wins, no matter how big or small (and they don't have to have anything to do with diet or autoimmune disease)

Every other Sunday: Giveaways!

Feel free to ask any questions or create any of your own posts ANY time as well!

If you want notifications, I suggest setting the type and frequency so you don't get bombarded! Go to your profile picture -> Personal Settings -> Notifications to adjust these!
